

PipeCut 460 Pro Series 2.0

The largest gripper pipe saw in the Exact Tools Pro Series range.

- User-friendly, extremely easy, safe, and convenient to use.
- Efficient, extremely fast cuts.
- Improved precision with traffic light system.
- Laser indicator for cutting point accuracy.
- Blade depth adjustment mechanism.
- Cuts steel pipes with wall thicknesses up to 20 mm
- Can be converted into a Cut&Bevel machine with the Cut&Bevel package for Pro Series (sold separately).
- Designed in Finland, made in the EU

Technical Specifications

110 V

Product number	7020460
Pipe material	Steel, Stainless/Inox, Cast iron, Glass fiber, Aluminium, Copper, Plastics.
Pipe OD	100-460 mm
Max. wall thickness	16 mm (steel), 50 mm (plastics)
Power	1600 W
No-load speed	I (low) = 1900 /min, II (high) 2900 /min
Blade diameter	140 mm, 165 mm, 180 mm, 190 mm
Mounting bore	62 mm
Weight	17.7 kg
Electronical unit	Blade speed preselection, overload protection, soft start, torque control
Loading capacity of supports	465 kg

220 V

Product number	7020460
Pipe material	Steel, Stainless/Inox, Cast iron, Glass fiber, Aluminium, Copper, Plastics.
Pipe OD	100-460 mm
Max. wall thickness	20 mm (steel), 50 mm (plastics)
Power	2500 W

No-load speed	I (low) = 1900 /min, II (high) 2900 /min
Blade diameter	140 mm, 165 mm, 180 mm, 190 mm
Mounting bore	62 mm
Weight	17,7 kg
Electronical unit	Blade speed preselection, overload protection, soft start, torque control
Loading capacity of supports	465 kg
