

ATTIX 30, 40 & 50

Easy handling and easy maintenance

The ergonomic and sturdy grip allows one hand cable rewinding and cable storage.

Improved accessory storage, tool deposit and container volume.

The perfect solution for professionals on the move
The ATTIX 30 is the compact generation of the ATTIX range - representing the possibility of achieving superior suction power in a durable and flexible solution.

With the freedom to choose, you can have the vacuums with different filter cleaning technologies; the Push&Clean system or the new generation of the fully automatic XtremeClean.

AutoOnOff socket (-21 models) makes it possible to adopt electrical power tools and the MultiFit accessory system gives the ultimate flexibility for different tasks.

Constant high suction performance

Push&Clean technology for fast and simple filter cleaning. If you are working with fine dust, you are surely familiar with the dreaded task of cleaning clogged filter cartridges to restore normal suction performance.

With Push&Clean, all you have to do to clean the filter, is block the inlet fitting or the hose, and push and release the filter cleaning button. Powerful air pulses will clean the filter gently. The dirt is blasted off the filter and the suction performance is high again - you are back to work in no time.

A comfortable and powerful but gentle way of cleaning the filter.

ATTIX 30

- superior suction power in a compact and flexible solution

ATTIX 30 series represent our compact and powerful range of all purpose Wet&Dry vacuum cleaners - a perfect solution for craftsmen on the move. The ergonomic design and low noise level emphasise our focus on real user benefits and longer working time.

The design lets you have your accessories on hand in a secure way.

Tube storage, with hook and clip secures a good fit to the machine.

The perfect solution for everyone who needs a high quality compact industrial vacuum cleaner!

To extend the ATTIX range, we have introduced the ATTIX 40 INOX with high quality stainless steel container.

This machine is of course available with all features you are familiar with from the existing ATTIX range, like Push&Clean and XtremeClean filter cleaning systems,

AutoOnOff socket for electrical power tools (-21 models), SoftStart and MultiFit for all accessories.

ATTIX 40 INOX represents the possibility of achieving superior suction power in a compact and flexible solution with an easy to clean stainless steel container.

The perfect solution when high performance combined with moist and robustness is required.

ATTIX 40 INOX

- robust stainless steel container to complete the range

ATTIX 40 is the ideal Wet&Dry vacuum cleaner, if you need high performance in combination with a compact quality stainless steel container. The robust and easy to clean stainless steel container and the high suction power makes ATTIX 40 the perfect solution for commercial and industrial use.

When you need container volume!

ATTIX 50 is the solution for the demanding customer with a high frequency of cleaning. More user-friendly operation and functional design ensures better performance - in short - all the elements that are needed for even more reliability and efficiency - here you have a market leading Wet&Dry solution!

The ATTIX 50 range gives you the possibility to choose between XtremeClean filter cleaning system and the Push&Clean filter cleaning system, AutoOnOff socket for electrical power tools (-21 models), anti-static capability, SoftStart and MultiFit for all accessories.

XtremeClean is extremely efficient and completely automatic

Compactness and high performance are key features in the most recent generation of the XtremeClean system, used on the ATTIX 30, 40 and 50 range.

With the ambition of setting new standards, the two curved flat filters with nano technology maximize the container volume and improve the efficiency even more.

A servo motor controlled Y-FLAP ensures precise reversed air flow and prevents power loss during operation. Start the vacuum - the filter is immediately cleaned automatically and every 20 seconds while you work!

There is no need to interrupt your work to clean the filter. You concentrate on your task, and XtremeClean will take care of the filter cleaning.

ATTIX 50

- superior suction power and innovative features
